PROFESSIONAL SUMMARY

Full-Stack Web Developer with **2+ years of hands-on experience** delivering scalable web applications and digital solutions. Skilled in the **MEAN stack (MongoDB, Express.js, Angular, Node.js)**, **WordPress**, and **UI/UX design tools** (Figma, Canva). Experienced in building **responsive, accessible, and SEO-optimized applications** with a strong grasp of DevOps workflows and agile collaboration. Adept at turning business and academic requirements into high-performance web solutions that enhance user experience and engagement.

EDUCATION

EDUCATION & CERTIFICATIONS - B.Sc. in Web Development – Bellevue University (Expected 2025) - Software Engineer
Certificate – Decagon Institute (2018 – 2019)
B.A. – University of Lagos (2014 – 2018)

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Academic, Freelance & Projects)

Bellevue University / Independent | 2024 – Present

- Designed and deployed full-stack applications using the MEAN stack and RESTful APIs.

- Tuba Farm App – Built a full-stack web application that recommends tractor models based on inputs (acres, crops, months worked, preferred fuel).

    - Frontend: HTML5, CSS3, JavaScript (responsive UI).

    - Backend: Node.js + Express (recommendation logic, API).

    - Hosting: Deployed on Render cloud platform.

- HarvestTrack MVP – Developed a crop management app with CRUD operations, MongoDB data modeling, and "7 days to harvest" alert system.

- Built WordPress websites for SMEs and student projects with a focus on SEO, accessibility, and mobile-first design.

- Created UI/UX prototypes in Figma/Canva, translating wireframes into responsive interfaces.

- Improved site performance with caching, accessibility audits (WAVE), and analytics-driven optimizations.

- Applied Agile workflows, GitHub version control, and CI/CD pipelines for deployments.

Freelance Software Development Consultant/Mentor

Codementor | Remote | Aug 2024 – Jul 2025

- Delivered live coding support and mentorship to junior and mid-level developers.

- Guided mentees through architectural trade-offs (frameworks, databases, hosting).

- Debugged and optimized frontend and backend apps for performance and scalability.

- Conducted code reviews to enforce quality, security, and best practices.

Web Content Specialist & WordPress Developer

TACTARN | Lagos, NG | May 2022 – Jun 2024

- Built and maintained WordPress websites using custom HTML, CSS, and JavaScript.

- Customized themes via ACF, Elementor, WPBakery to achieve brand consistency.

- Applied accessibility best practices (WAVE) and improved inclusivity across sites.

- Collaborated with designers using Figma & Canva to deliver engaging UI/UX.

- Managed content migration, QA testing, CRM integrations for business workflows.

- Optimized site speed, SEO rankings, and conversion rates via A/B testing.

- Led a mobile-first redesign improving accessibility across devices.
